1. Wash up, clean up and leave the kitchen clean and tidy as my flatmates would leave it for me.
2. Remove rubbish from my bedroom and dispose of it in the outside bin store.
3. Keep my bedroom clean and tidy.
4. Put food waste in the bin and dispose of out-of-date food that is in the fridge.

Slide Nine – Food Hygiene

- Food hygiene checks are conducted every weekend - fridges are checked for out-of-date food which will be disposed of.
- No metal containers are to be used to store food in fridges.
- Leftover food must be covered and labelled with the date you put it in the fridge.
- Any leftovers must be eaten within 3 days.

Bacteria starts to grow and multiply on food after 10 - 20 minutes.

To keep it fresh, store correctly in the fridge and consume within the Use By date.

Slide Ten – Living Together Part 1

Living Together

For many of you it is the first time you will be away from home. It is important that when you live with others you conduct yourself respectfully by behaving in an appropriate manner.

It is about finding a balance

Slide Eleven – Living Together Part 2

If you are worried, here are some tips to ensure you are a good flat mate.

1. If you have cooked your dinner, it is expected that you wash your dirty pots and clean up after yourself after you have eaten. For a clean & healthy living environment you would expect this of your flatmates also.
2. Negotiate with your flatmates, how you will label your fridge food, which drawer you have in the freezer and which cupboard you will store your food. This prevents possible future disagreements where you might find you've used someone's milk or eaten their cereal.
3. Do not take other residents' food, pots, or gadgets without first asking first.

Slide Twelve – Living Together Part 3
